

TABLE 14.3

**The Cox-Sprague Scoring System as recommended by the
Y.R.A. of Long Island Sound**

In each race each yacht will be credited with the number of points indicated in the table below for its finishing position. The number of starters will determine which column is to be used for each race. Each yacht's total score still be divided by the sum of the scores of the winners of the races in which it starts. The highest resulting score wins. Ties in the final standing will be sailed off.
